Murky Bot Documentation

Bot Command Symbol
~
Start all commands so the bot knows to process it

How to get..
Channel Id -> Right click a channel -> Copy ID
Message Id -> Click 3 dots for "more" -> Copy ID

Command
~botstatus

Description
Check if the bot is up and running.

Command
~set_eventCreateChannel <channelId>

Description
Sets the channel that the bot should listen to for commands.

Example
~set_eventCreateChannel 852229238617669672

Command
~set_eventPostChannel <channelId>

Description
Sets the channel that the bot should post events to.

Example
~set_eventPostChannel 865681083169636362

Command
~create_event
Title:"<title of event>"
Date:"<yyyy-MM-dd>"
Time:"<time event starts>"
CheckIn:"<time for people to check in | optional>"
Description:"<Description of event>"
EventType: "<event type 50v50 | HLL | ARMA | default>"

Description

Creates a new event and posts it as an embed in the event posting channel. Users click on the emotes attached to the embed to sign up. The emote options for sign ups are controlled by event type. Event type also controls look/color of the embed.

With times, make sure to include am/pm and EST.
Check In param is optional. You do not need to include it.

@ a role does not ping the users in the role. It is a "feature" of the discord api and embed messages.

Example 1
~create_event
Title:"Scrim vs SE:VH"
Date:"2021-8-21"
Time:"3pm EST"
CheckIn:"2:15pm EST"
Description:"50v50 scrim vs a Brazilian clan SE:VH. Expect a good fight! Map is Kursk and we are the Germans"
EventType: "50v50"

Example 2
~create_event
Title:"Assault of Saigon"
Date:"2021-8-20"
Time:"8pm EST"
Description:"Attention soldiers and airmen of @Arma3 - Games!
post note: If you're worried about low frame rates inside Saigon then please mark in the sign-ups next to your name the number -2. Example: Stalinium-2"
EventType: "arma"

Example 3
~create_event
Title:"Assault of Saigon"
Date:"2021-8-29"
Time:"8pm EST"
Description:"Among Us with the camp! Starting around 8pm EST. Look for GingerBastard in voice."
EventType: "default"

Command
~get_signups <messageId>

Description
Get all the people that signed up for the specific event. Will display users by emote clicked.

Example
~get_signups 876538458070450207
